

# Dr Nenad Stanković

## DMD, specialist of cosmetology

Internationally renowned as a leading lecturer, trainer and expert in facial aesthetics, Dr Stanković has personally trained hundreds and lectured thousands of Doctors, Dentists and Plastic Surgeons in non-surgical facial rejuvenation procedures. Starting with domestic training since year 2011, and expanding international in 2014 he has taught many medical and dental professionals all over the world and in turn this has developed facial aesthetics on a global scale.

Due to his success with such treatments, he pioneered many of his own techniques and developed a way in which he could teach his concepts and protocols within a HANDS-ON training program for other medical and dental professionals.

Right next to leading experts in aesthetic field, Dr Stanković was invited as a speaker on congresses and workshops in Monte Carlo, Spain, People's Republic of China, Israel, Russia, Kazakhstan, Bulgaria, Croatia, Macedonia, Poland, Brazil ...

Innovations, challenges, and training encouraged him to develop his methods in his daily work with clients to enable them to always look younger and satisfied. Acquired

knowledge, skills, experience and professional contacts with the most prominent representatives of anti-age he uses successfully in his private clinic „ESTERA“ in the heart of Belgrade, Serbia.

Dr Stanković is a founding member of SUDEL society that organizes “SUDEL International Symposium in Aesthetic Medicine”, as well as a member and keynote speaker of SESIAM society that organizes SESIAM International Congress of Aesthetic Medicine. The societies are organizing certified trainings for medical Doctors and Dentists in the application of scientifically based principles of non-surgical rejuvenation. In accordance with the highest standards of highly qualified teaching our students get acquainted with the techniques and protocols, mastering skills for independent work. With multimedia access, quality equipment and experience of leading experts in aesthetic medicine, will strengthen their competencies, improve their skills and advance your career. With a proven methodology that provides interactivity and continuous cooperation with the mentor, doctors can be confident in their skills that are applicable in practice and in accordance with the latest international trends.

Dr Stanković, as a certified international speaker and expert trainer, held numerous, national and international, lectures and workshop for prestigious Spanish company SKIN TECH PHARMA GROUP S.L., which is a World leader in Chemical peels and injectables.
